Amanda Tolver;

For the past three years, I have been a member of the LRC board where most of that time has been spent serving as the Apparel and Merchandise Coordinator. Moving forward, I hope to continue serving as a board member and dedicating my time to building and strengthening the relationships we have with our contacts throughout the rugby community. It is my goal to ensure that our club is represented with consistency and pride. Part of my responsibilities as a board member is to ensure the LRC brand is represented with integrity across all teams, from Mini's to Seniors, while working hard to ensure club membership remains accessible by keeping club overhead costs down by avoiding unnecessary expenses. As our club continues to grow, it has been a challenge to ensure we have a variety of apparel and merchandise available to match the diversity of our members and supporters. I hope to have the opportunity to continue in this role so that I can work to improve the range and quality of our apparel as part of my overall work to strengthen relationships within the club and our local community; ensuring we can all proudly represent the Langley Rugby Club.

Thanks,
Mandy

I'm excited to run for the LRC Board of Directors this year!

I am a passionate Senior women's player, current U14 girls coach at Langley and for the PRC's, a loving Rugby mom and Senior mens/womens Fieldside medic. I thoroughly enjoy every different variable each of these roles entail.

I've sat on many executive committees in my 19 year career as a sports therapist and clinic owner/operator, and am very familiar with the organization and discipline it requires to get projects accomplished for the benefit of a company.

My particular passion for this role, is creating and seeking out corporate sponsorships and partnerships in the Langley community. This goal will aid in the rapid growth and provide further opportunities and supports for the various programs and goals of the club and its registrants.

Thank you for your consideration and I look forward to being of further service to the people of the LRC!

Since joining the LRC in 2019 at 29, never playing prior, the impact it's had on not only my life but my children's is indescribable. Through this sport, and club, I have found immeasurable passion, purpose and confidence that had never been found within myself. While active within the club I have jumped both feet in, through playing for our division 1 team, coaching my two beautiful children and other kids within the minis, fulfilling my duties and obligations running components of our social media platforms and giving back where I can, I now want to take the next step and have more of a voice by sitting at the big table. I am a man for the people, and my primary purpose of applying for a position within the board is to be a voice and liaison not only for the brothers I battle with every Saturday, but the club as a whole. As I stated above, the purpose I've so gratefully obtained through this sport is something I stay humble about. It's all part of a bigger picture. And if I have anything to say about it, I want to be able to share that bigger picture with everyone around me, and those who have yet to come. If I gain a seat within the committee I will undoubtedly be an active, respected, trusting and courageous individual, just as I am in my every day dealings. Thank you for taking the time to read this in your busy schedule and I hope the way I have carried myself in a short period of time leverages me to a spot on the board.

Regards,

Preston Lahmer

The LRC is family; I want to do everything I can for my rugby family. I have played for the LRC since I was in grade 8 in 2000. I started coaching in 2016 and have coached for the club, At LSS and Valley West at the PRC. Last year I applied for the BC Gaming Grant, which the club had not done in several years, and we would have received it if not for a banking complication. I have a bachelor's degree in political science and am currently working on my Bachelor of Education. I believe my experience and education could be helpful to the club. This club has a bright future, and I have many ideas I would like to contribute to it. The board has done incredible work, and I would love to be a part of it. I would be honoured to be able to contribute to the bright future I see for this club as a member of the board. Thank you for your time and consideration.

Kym Kochan

While growing up in Niagara Falls, Ontario, my brother encouraged me to play rugby when I started high-school. I was lucky enough to have an amazing coach who taught us every part of the game and made sure we felt safe and welcomed in the sport. I was immediately hooked and continued to play for my school team, the Stamford Hornets until I graduated. In 2018, my husband and I moved to Langley, tired of the cold and chilly east coast winters. I soon found myself missing the tight-knit rugby community and joined the Langley Rugby Club's Senior Women's team in March of 2022. Since then, I have enjoyed playing and watching our club grow as we continue to bring in more youth and senior players. I'm especially proud to play alongside all the amazing women who've joined our senior team this season, helping us pursue our goal of moving into division one. On top of playing, I have donated my time to helping coach the LRC Mini's while also coaching the high-school girls' team at Langley Secondary School as a representative of LRC. I also work to bring awareness to the club by helping schools within the Langley School District create rugby lesson plans, which I will also be implementing for our 2023 rugby summer camps. With my background and connections in education, I hope to continue to help develop and grow our youth programs to ensure a strong and thriving future for the Langley Rugby Club.

Thanks, Kym
